NSRA Agreed Valuation Guidelines

It is important to bear in mind that this valuation is only for use in conjunction with the NSRA Insurance Scheme, placed with an Insurance company administered by ClassicLine Insurance.

This valuation is only valid for two years and must be renewed prior to its expiry.

Listed below are some guidelines on how to present your application for an Agreed Valuation under the terms of the NSRA Insurance Scheme. Please note that I represent the NSRA and as such am not associated with any insurance company that is handled by Classicline Insurance, to whom all enquiries should be directed.

This scheme is for pre-1973 vehicles only - specifically Street Rods, Customs and Modified American Vehicles.

Your application must include all of the following:

Personal Details

Your name, address and contact number. Your current NSRA membership number and your insurance policy number.

Vehicle Description

A full description of the vehicle covering all major components i.e. body, chassis, engine, transmission, axles. Please use the form on the reverse of this document or attach a comprehensive description.

For professional builds and work please provide receipts where applicable.

This list is intended only as a guide for you to supply the information required. Please feel free to use this form or supply the details requested on a separate sheet of paper if there is insufficient room. Please try to be as comprehensive and as legible as possible.

Remember, the information supplied will be what your valuation is based on. Do not assume that the images you supply will show all of the details required.

Vehicle Images

Please supply a minimum of five images: showing front, rear, interior, engine and both sides of the vehicle. The best format for these would be:

- two corner shots showing one side with either the front or the back;
- a shot with the other side and the remaining end;
- a shot of the vehicles interior; and
- a shot of the engine

If there are any other features or even build-up shots that you feel would be helpful in arriving at a valuation, please enclose them. I only keep one full view shot for the club records - all others will be returned to you or forwarded onto ClassicLine Insurance if required.

Please make sure that all images are clear, well lit and there are no obstructions to the view of the vehicle. Date-stamped images are a definite plus, especially for re-valuations.

If there are any other features or build pictures you feel will help the valuation please send there. All photos will be returned providing a self stamped addressed envelope is included with the application.

A stamped, self addressed envelope (ideally C5 size)

For postal applications only. This is required to return photos and your valuation certificate.

Applications for Renewal of Valuations

Providing all details and photos have been provided in the past a new form will NOT be required. However significant changes to your vehicle must be recorded.

Renewals can normally be done by email or telephone.
